# CONTENTS OF VOLUME 439

*August* 1991

SMITH J.A., SHAH A.M. & LEWIS M.J. Factors released from endocardium of the ferret and pig modulate myocardial contraction. 1

BOLSHAKOV V.YU., GAPON Svetlana A. & MAGAZANIK L.G. Different types of glutamate receptors in isolated and identified neurones of the mollusc *Planorbarius corneus*. 15

STACK Julianne & SURPRENANT Annmarie Dopamine actions on calcium currents, potassium currents and hormone release in rat melanotrophs. 37

LA COUR Morten Kinetic properties and $Na^+$ dependence of rheogenic $Na^+$–$HCO_3^-$ co-transport in frog retinal pigment epithelium. 59

DE TROYER André Differential control of the inspiratory intercostal muscles during airway occlusion in the dog. 73

MAWE Gary M. The role of cholecystokinin in ganglionic transmission in the guinea-pig gall-bladder. 89

DI BENEDETTO Giuseppe, MAGNUS Christopher J., GRAY Peter T.A. & MEHTA Anil Calcium regulation of ciliary beat frequency in human respiratory epithelium *in vitro*. 103

NELSON Dwight E. & TAKAHASHI Joseph S. Sensitivity and integration in a visual pathway for circadian entrainment in the hamster (*Mesocricetus auratus*). 115

MCDANIEL Nancy L., REMBOLD Christopher M., RICHARD Howard M. & MURPHY Richard A. Cyclic AMP relaxes swine arterial smooth muscle predominantly by decreasing cell $Ca^{2+}$ concentration. 147

DELWAIDE P.J. & PEPIN J.L. The influence of contralateral primary afferents on Ia inhibitory interneurones in humans. 161

IKEDA Stephen R. Double-pulse calcium channel current facilitation in adult rat sympathetic neurones. 181

DZIEGIELEWSKA K.M., HABGOOD M.D., MØLLGÅRD K., STAGAARD M. & SAUNDERS N.R. Species-specific transfer of plasma albumin from blood into different cerebrospinal fluid compartments in the fetal sheep. 215

MEKATA F. Electrical responses of coronary artery smooth muscle associated with the cardiac muscle action potential in the monkey. 239

ONODERA K. & TAKEUCHI A. Uneven distribution of excitatory amino acid receptors on ventral horn neurones of newborn rat spinal cord. 257

MEHRKE G., POHL U. & DAUT J. Effects of vasoactive agonists on the membrane potential of cultured bovine aortic and guinea-pig coronary endothelium. 277

SLESINGER Paul A. & LANSMAN Jeffry B. Inactivating and non-inactivating dihydropyridine-sensitive $Ca^{2+}$ channels in mouse cerebellar granule cells. 301

BAUMANN T.K. & HULLIGER M. The dependence of the response of cat spindle Ia afferents to sinusoidal stretch on the velocity of concomitant movement. 325

KIHARA Mikihiro, WEERASURIYA Ananda & LOW Phillip A. Endoneurial blood flow in rat sciatic nerve during development. 351

SAKAI Tetsuro, KOMURO Hitoshi, KATOH Yusuke, SASAKI Hiroshi, MOMOSE-SATO Yoko & KAMINO Kohtaro Optical determination of impulse conduction velocity during development of embryonic chick cervical vagus nerve bundles. 361

COLES J.A. & POULAIN D.A. Extracellular $K^+$ in the supraoptic nucleus of the rat during reflex bursting activity by oxytocin neurones. 383

GARDNER Michael L.G., ILLINGWORTH Kathryn M., KELLEHER Jerry & WOOD Diana Intestinal absorption of the intact peptide carnosine in man, and comparison with intestinal permeability to lactulose. 411

KORN Stephen J., BOLDEN Arthur & HORN Richard Control of action potentials and $Ca^{2+}$influx by the $Ca^{2+}$-dependent chloride current in mouse pituitary cells. 423

BARNES G.R. & ASSELMAN P.T. The mechanism of prediction in human smooth pursuit eye movements. 439

LINDSAY Allan R.G., MANNING S. Diane & WILLIAMS Alan J. Monovalent cation conductance in the ryanodine receptor–channel of sheep cardiac muscle sarcoplasmic reticulum. 463

JONES C.T., EDWARDS A.V. & BLOOM S.R. Endocrine responses to intra-aortic infusions of acetylcholine in conscious calves. 481

WANG Q. & LARGE W.A. Modulation of noradrenaline-induced membrane currents by papaverine in rabbit vascular smooth muscle cells. 501

MAHAUT-SMITH M.P. & MASON M.J. $Ca^{2+}$-activated $K^+$ channels in rat thymic lymphocytes: activation by concanavalin A. 513

O'SULLIVAN M.C., EYRE J.A. & MILLER S. Radiation of phasic stretch reflex in biceps brachii to muscles of the arm in man and its restriction during development. 529

MACEFIELD Gary & GANDEVIA Simon C. The cortical drive to human respiratory muscles in the awake state assessed by premotor cerebral potentials. 545

DALY M. de Burgh Some reflex cardioinhibitory responses in the cat and their modulation by central inspiratory neuronal activity. 559

WRIGHT Jerry M., KLINE Paul A. & NOWAK Linda M. Multiple effects of tetraethylammonium on *N*-methyl-D-aspartate receptor–channels in mouse brain neurons in cell culture. 579

DULHUNTY Angela F. Activation and inactivation of excitation–contraction coupling in rat soleus muscle. 605

EDRY-SCHILLER Jackie, GINSBURG Simona & RAHAMIMOFF Rami A bursting potassium channel in isolated cholinergic synaptosomes of *Torpedo* electric organ. 627

ANDREASEN M. & LAMBERT J.D.C. Noradrenaline receptors participate in the regulation of GABAergic inhibition in area CA1 of the rat hippocampus. 649

THOMPSON Scott M. & WONG Robert K.S. Development of calcium current subtypes in isolated rat hippocampal pyramidal cells. 671

WATANABE Tatsuo, MORIMOTO Akio, SAKATA Yoshiyuki, WADA Minoru & MURAKAMI Naotoshi The effect of chronic exercise on the pituitary–adrenocortical response in conscious rats. 691

HOFMANN Polly A., GREASER Marion L. & MOSS Richard L. C-protein limits shortening velocity of rabbit skeletal muscle fibres at low levels of $Ca^{2+}$ activation. 701

MATHIE Alistair, CULL-CANDY Stuart G. & COLQUHOUN David Conductance and kinetic properties of single nicotinic acetylcholine receptor channels in rat sympathetic neurones. 717

VOLK K.A., MATSUDA J.J. & SHIBATA E.F. A voltage-dependent potassium current in rabbit coronary artery smooth muscle cells. 751
